## Sointula Zoom Acting Classes

# Famous Dead Character Study

What is a Famous Dead Character Study? Based on a first-year university acting project, a famous dead character study is a process of exploration, creation and performance. Your famous dead person could be a writer, criminal, scientist, politician, actor, explorer, monarch...

The Zoom Classes will be once a week for one hour. Classes are limited to a maximum of five, so it's possible to be in a class with those you want to work with - though interesting to work with new people. It will be a combination of group work and solo instruction.
